

# Product Information

A PRODUCT OF THE VALVOLINE COMPANY A DIVISION OF ASHLAND INC.

## Valvoline X-All Grease

### Description

**Valvoline X-All Grease** is an organophyllic clay based, non melting grease. This grease has good adhesive and cohesive properties and finds application where high temperatures, 120°C to 250°C, limit the use of soap based greases in roller bearings, oven chains, tunnel kiln car bearings, guides and slides.

### Advantages

- Salve-like texture ensures easy dispensing from manual and semi-automatic equipment.
- Grease has infusible drop point.
- Protects against rust and corrosion.
- Excellent resistance to water washing and is an outstanding lubricant for upper assemblies of outboard motors.
- Good lubrication properties.

### Properties

Test	Typical Property
NLGI Grade	2
Worked Penetration @25°C 0,1mm	265/295
Drop Point °C	Non-Melting
Colour	Yellow Brown
Texture	Smooth, Salve-like

### SUITABLE FOR HIGH TEMPERATURES

This information only applies to products manufactured in the following location(s): South Africa
