

Product Information

A PRODUCT OF THE VALVOLINE COMPANY A DIVISION OF ASHLAND INC.

Valvoline Unitrac Fluid

Description

Valvoline Unitrac Fluid. A multi-purpose all-weather tractor hydraulic fluid. Exclusively designed to satisfy the advanced performance requirements of all farm equipment manufacturers. It provides the improved functional properties needed today by tractor fluids that must operate at higher temperatures and under heavier loads. Compounded with high quality base oils and carefully selected additive systems to provide a long lasting fluid with multiple applications.

Advantages

- A qualified Allison C3 fluid it is recommended for many automatics, semi-automatics (powershift) and torque converter transmissions on heavy vehicles and earth moving equipment.
- Recommended for use in tractor and implement hydraulic systems.
- Excellent lubricant for differentials, final drive gears, power steering, brakes and implement hydraulic drives.
- Recommended for wetbrakes and power take-off clutches.

Approvals / Performance Levels

Valvoline Unitrac Fluid complies with the following Equipment Manufacturers' specifications.
Allison C2,C3 Transmission Fluid, Allis Chalmers – Power Fluid 821, J.I. Case – 143, 144, 145.
John Deere – J20A (J14B, JD 303), Ford – M2C-53A, M2C-86A, M2C-134A.
International Harvester – B6, Massey Ferguson – M-1110, M-1127, M-1129A, M-1135.

Properties

Test	Typical Property
Density @ 20°C	0.884
Viscosity @ 40°C cSt	81.0
Viscosity @ 100°C cSt	11.5
Viscosity Index	133
Pour Point °C	-21
Flash Point °C	220
